

Instructions for configuring Zone Alarm to work with Chadwyck Healy

1. Open Zone Alarm.
2. Click on Privacy

3. Click on add
4. Type in safaribooksonline.com

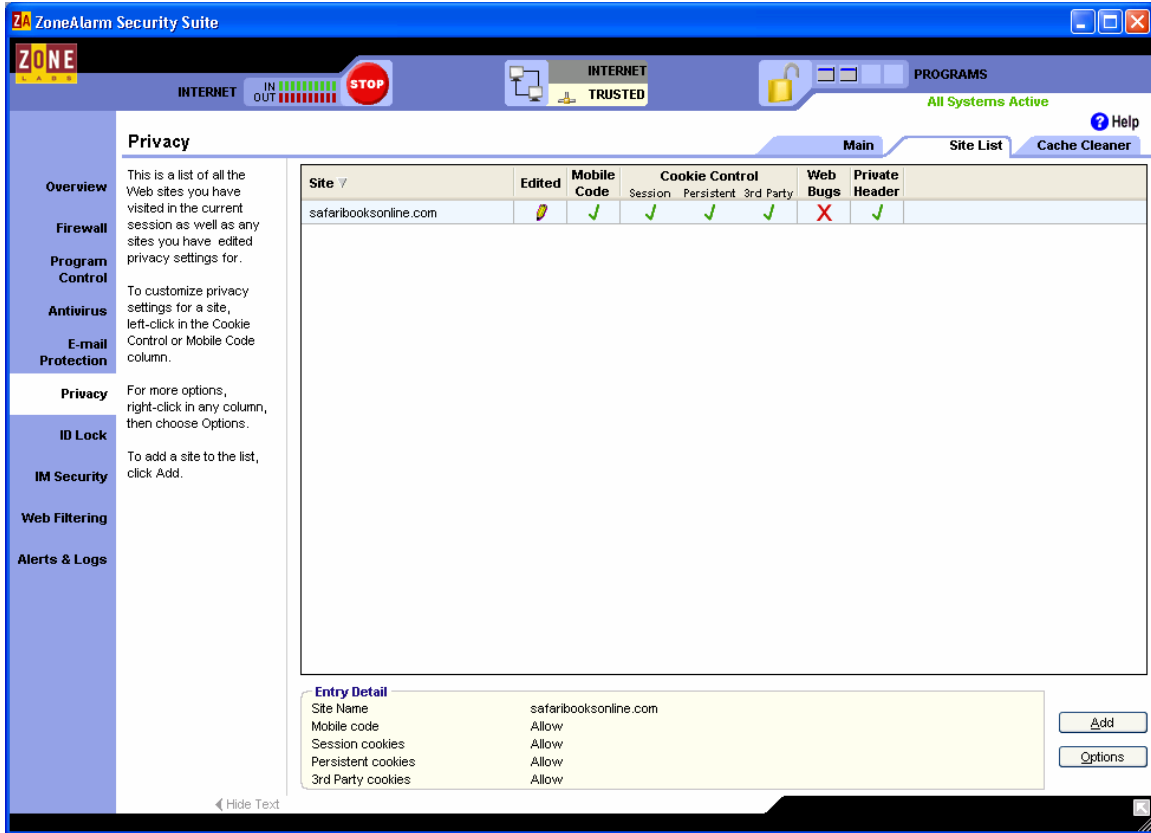

5. Click on the “X” under Cookie Control 3rd Party and choose allow

The screenshot shows the ZoneAlarm Security Suite interface. The top status bar indicates 'INTERNET' with 'IN' and 'OUT' traffic indicators, a 'STOP' button, and 'PROGRAMS' with 'All Systems Active'. The main window is titled 'Privacy' and has tabs for 'Main', 'Site List', and 'Cache Cleaner'. On the left is a navigation menu with options like Overview, Firewall, Program Control, Antivirus, E-mail Protection, Privacy, ID Lock, IM Security, Web Filtering, and Alerts & Logs. The 'Privacy' section contains a table of visited sites with columns for Edited, Mobile Code, Cookie Control (Session, Persistent, 3rd Party), Web Bugs, and Private Header. The entry for 'safaribooksonline.com' shows 'Web Bugs' and 'Private Header' with red 'X' marks. Below the table is an 'Entry Detail' section with 'Add' and 'Options' buttons.

Site	Edited	Mobile Code	Cookie Control			Web Bugs	Private Header
			Session	Persistent	3rd Party		
safaribooksonline.com							

6. Repeat for Private Headers

7. Log into Safari through your Library's site.
